

Canyonlands National Park

This is beautiful peaceful country; some of us have spent our whole life here loving and taking good care of it. People come from the east and the city to tell us how to do this.

It is beautiful and quiet. Canyonlands National Park should be expanded to include Newspaper Rock and up to Canyon Rims.

It is important to have public lands that you can go and enjoy without worrying about trespassing signs. It is a beautiful park to hike and visit with children.
